

## **The Truth About Epilepsy** (And Seizures, Too)

**Thursday, Nov. 19**

6:30 – 8 p.m.

Mayo Clinic, 4500 San Pablo Road  
Kinne Auditorium, Cannaday Building

Approximately 200,000 new cases of seizure disorders and epilepsy are diagnosed each year. Join [William Tatum, D.O.](#), and specialists from Mayo Clinic's [Department of Neurology](#) and the local [Epilepsy Foundation](#).

The event will feature information about epilepsy, as well as what treatments are available. Details also will be shared about Mayo Clinic's newly expanded Epilepsy Monitoring Unit that helps physicians diagnose and monitor seizures.

This event is free and open to the public. Seating is limited and reservations are preferred. To reserve a seat, call 904-953-6071.
