Review course description and goals

The review course is an overview of cancer and oncology nursing practice. It is designed for oncology nurses practicing in settings across the continuum of care and can be used in preparation for certification. Participation in this review course does not guarantee successful completion of a certification test.

Participants completing this course should be able to:
• Identify essential components of care for individuals with cancer.
• Review current pharmacologic and treatment strategies for cancer care.
• Utilize research-based recommendations for cancer care practices across the continuum.

Continuing education credit

Mayo Continuing Nursing Education is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center’s Commission on Accreditation.

Participants can earn up to 12.5 nursing contact hours (accredited) for the review course.

2013 Cancer Care Conference
Innovative Therapies: Inspiring Hope
Wednesday, September 11, 2013

Conference description and goals

The 2013 Cancer Care Conference is designed to share current approaches in cancer treatment. Highlights include new surgical approaches and innovative oral therapies providing hope for cancer patients. Unique cancer journeys described by cancer survivors will address communication barriers and personal choices of fertility and hope. Participants will learn about tools to address some of the challenges that face both patients and caregivers.

The conference is designed to:
• Discuss family and caregiver needs.
• Highlight new treatment options for individuals with cancer.
• Address controversy in cancer prevention screening.
• Explore the benefits of resiliency.
• Illustrate the uniqueness of each cancer journey.

Date and location

This conference will be held Wednesday, September 11, 2013 in Phillips Hall, Siebens Building, 100 Second Avenue SW, Rochester, Minnesota.

Intended audience

The conference is designed for nurses and other healthcare professionals interested in the care of individuals with cancer and their families.

Featured faculty

Laurel L. Northouse, PhD, RN, FAAN, is the Mary Lou Willard French Professor of Nursing at the School of Nursing, University of Michigan, Ann Arbor, Michigan. Northouse is a nurse scientist in the field of cancer research. Her research has been funded by the National Institute for Nursing Research, the National Cancer Institute, and the American Cancer Society. Northouse has conducted several studies that describe the impact of cancer on the family, and developed a model to identify patients and family members at higher risk of developing emotional distress following a diagnosis of cancer. She has developed and tested a family-based program of care called the FOCUS Program for cancer patients and their family caregivers. Northouse is developing a web-based program to help cancer patients and their family caregivers communicate more effectively with one another while managing the demands of cancer. Among other awards, she has been the recipient of the Oncology Nursing Society Distinguished Researcher Award for Excellence in the Development of Oncology Nursing Science. Northouse also serves on the board of directors of the American Psycho-Oncology Association.
