Intro with music	GIVING YOU THE EDGE ON HEALTHY LIVING, HERE'S MAYO CLINIC'S MEDICAL EDGE.
	LIKE ALL CANCERS, LUNG CANCER IS MOST TREATABLE WHEN YOU CATCH IT EARLY. THE PROBLEM IS, THERE ARE RARELY ANY WARNING SIGNS UNTIL IT'S WELL ADVANCED. THAT'S WHY LUNG CANCER HAS OFTEN BEEN THOUGHT OF AS A DEATH SENTENCE.
Dawn Jaroszewski, M.D.	"THERE'S ALWAYS BEEN THIS TENDENCY OF PEOPLE WHO HAVE MORE ADVANCED CANCERS TO BE TOLD THEY ARE NOT TREATABLE."
	BUT DOCTORS AT MAYO CLINIC, LIKE SURGEON DAWN

	JAROSZEWSKI, ARE WORKING TO CHANGE THAT PERCEPTION. DR. JAROSZEWSKI EXPLAINS THAT IN SOME CASES, BY USING CHEMOTHERAPY AND RADIATION, IT'S POSSIBLE TO ACTUALLY DO WHAT IS CALLED DOWN-STAGING.
Dr. Jaroszewski	"WE ACTUALLY TAKE THESE TUMORS, HAVE THEM GET SMALLER, REGRESS, SO WE ARE ABLE, THEN, TO SURGICALLY RESECT THEM."
	IT'S JUST ANOTHER REASON WHY DR. JAROSZEWSKI RECOMMENDS SEEKING CARE AT A CANCER CENTER. A PLACE WHERE SPECIALISTS FROM MANY DISCIPLINES WORK TOGETHER TO PROVIDE THE BEST TREATMENT.
	FOR MORE INFORMATION, TALK TO YOUR DOCTOR OR VISIT MAYOCLINIC.ORG . I'M VIVIEN WILLIAMS.
