Mark Allen, M.D. Track 5 (1:32)	"I THINK WHAT WE'LL SEE VERY, VERY SOON AS FAR AS DETECTION IS SOME SORT OF GENETIC MOLECULAR TEST THAT WILL SAY, 'OK YOU HAVE LUNG CANCER OR YOU HAVE ESOPHOGEAL CANCER, YOU'VE GOT THIS OR WHATEVER.'"

	<p>MAYO CLINIC DR. MARK ALLEN SAYS THAT'S IMPORTANT BECAUSE YOU COULD CATCH THE CANCER AT A MUCH EARLIER STAGE.</p>
<p>Dr. Allen Track 5 (2:52)</p>	<p>“FOR TREATMENT, I THINK CANCER WILL BE SUPRESSED. IT’LL GET TO BE LIKE A CHRONIC DISEASE. IT WON’T GET RID OF IT COMPLETELY, BUT IT WILL MAKE IT GROW SO SLOWLY THAT REALLY WHO CARES THAT YOU HAVE IT.”</p>
	<p>WHAT WILL HELP US GET THERE? CLINICAL TRIALS. DR. ALLEN ENCOURAGES ANYONE WITH AN OPPORTUNITY TO BE INVOLVED IN TESTING, TO CONSIDER TAKING PART.</p>
