Intro with music	GIVING YOU THE EDGE ON HEALTHY LIVING, HERE'S MAYO CLINIC MEDICAL EDGE.
	WHEN A MAN WALKS INTO DR. DANIEL ELLIOTT'S OFFICE AT MAYO CLINIC AND COMPLAINS ABOUT STRESS INCONTINENCE, HE'S ALREADY GOT A GOOD IDEA AS TO THE CAUSE
Daniel Elliott, M.D. Track 2 (1:45)	"ABOUT 98-PERCENT OF THE PEOPLE WHO END UP HAVING TREATMENT FOR STRESS INCONTINENCE, IT'S DUE TO SURGERY FOR PROSTATE CANCER."
	AND ALWAYS WORRYING, WONDERING WHERE THE CLOSEST BATHROOM IS CAN

	DOMINATE THEIR LIVES.
Dr. Elliott Track 2 (2:54)	“MOST INDIVIDUALS HAVE NEAR TOTAL INCONTINENCE. THEY’RE WEARING FIVE TO TEN PADS PER DAY WHICH IS A LARGE AMOUNT OF URINE.”
	BUT THAT DOESN’T MEAN YOU HAVE TO LIVE WITH IT. IN FACT, DR. ELLIOTT AND HIS COLLEAGUES ARE PUSHING HARD TO EDUCATE NOT ONLY PATIENTS, BUT ALSO OTHER PHYSICIANS THAT THERE ARE TREATMENT OPTIONS AVAILABLE.
Dr. Elliott Track 2 (2:33)	“THERE’S NO REASON FOR A MAN WHO’S LEAKING AFTER PROSTATE SURGERY TO HAVE TO SUFFER THROUGH THAT.”
	FOR MORE INFORMATION, TALK TO YOUR DOCTOR OR VISIT MAYOCLINIC.ORG . I’M VIVIEN WILLIAMS.
