Patient Care

**Recommend lifestyle changes to improve women's heart health**
Heart disease is the No. 1 cause of death among American women. The American Heart Association has identified seven risk factors that can be improved through lifestyle changes to achieve cardiovascular health.

Research

**Mayo Clinic Proceedings goes fully digital for 2021**
Mayo Clinic Proceedings' move to online-only access provides subscribers with access to new content and the ability to search content by specialty or subject area — plus connections to related multimedia.

**Point-of-care genetic testing for CYP2C19 genetic variants has greater than 99% accuracy**
A meta-analysis shows a clear advantage of genetic testing in helping health care providers choose the appropriate anti-platelet drug.
