COVID-19 Updates

Find resources for providers and answers to questions on referrals and testing on the Medical Professionals Resource Center

Patient Care

[Advanced weight management program helps patients achieve weight loss and maintenance goals](#)

Program specialists employ advance triage calls, a weight management blog and video follow-up appointments to address the individual needs of overweight and obese patients.

[COVID-19-related myocarditis may cause severe damage and sometimes death](#)

Leslie T. Cooper Jr., M.D., Cardiovascular Medicine chair at Mayo Clinic in Jacksonville, Florida, addresses COVID-19's effect on the heart in hospitalized patients and young people, and identifies necessary research.

[Patients with breast cancer benefit from shorter courses of radiotherapy](#)

Mayo Clinic helps patients with breast cancer by sparing normal tissue and reducing treatment time via newly adopted practice guidelines embracing short-course radiotherapy as a standard of care.

Research

[Clinical trial to identify predictors for post-traumatic headache](#)

Nearly 40% of patients who develop acute post-traumatic headache experience persistent headaches. Researchers are conducting a study to identify mechanisms and predictors of persistent post-traumatic headache caused by mild traumatic brain injury.
