Conflict of Interest

Conflict of Interest in Development Activities Policy

Scope

Applies to all Personnel when involved in Department of Development solicitation activities.

Purpose

To identify and manage conflicts of interest between Mayo Clinic and its actual or potential benefactors.

Policy

- Within Department of Development solicitation activities, if a benefactor or potential benefactor expresses interest in receiving favorable consideration for a future business relationship, or in any business matter involving Mayo Clinic or any of its entities based on past, current, or future gifts, the Department of Development will immediately cease any solicitation efforts and inform the benefactor that no further gifts can be accepted until the matter has been resolved.
- After the matter has been resolved and following execution of a purchase agreement or selection of an alternate vendor, the Department of Development may resume solicitation.
- Within the Department of Development negotiation process and within the final gift agreement, language must be included clearly stating that gifts to Mayo Clinic will not influence Mayo Clinic policies or decisions regarding ownership of intellectual property, purchasing policies and processes, education, employment, and/or research decisions.
- The gift agreement also must state that any proposed use of the Mayo Clinic name by the benefactor must be approved by the Mayo Clinic Brand Team and that the gift to Mayo Clinic does not represent a direct endorsement of the benefactor’s organization, or any related entity, products or services.
