

**Eric A. Aguirre, R.N.**

Participant, Summer III Nursing Externship

**Eric A. Aguirre, R.N.:** I came as a Summer III. I started up on a thoracic floor, and then I moved into the ICU. The internship program here, the Summer III program, is a great opportunity for nurses, and I would highly recommend nurses to apply for it. Just, it gives you that advantage. So working here at Mayo, for me, is a life-changing career.
