

HONORING PHILANTHROPY

Mayo Alumni

2012

May 2013

Dear friend:

As an alumni benefactor, you are critical to the success of Mayo Clinic. It is our pleasure to acknowledge, with gratitude, our philanthropic alumni each year in this publication. I trust that your contributions are linked in some way to a positive experience at Mayo Clinic. Thank you for giving back.

As a not-for-profit institution, Mayo Clinic reinvests all earnings above expenses into providing patients the very best care possible, seeking answers to confounding questions and training the next generation of physicians and researchers. Whether you joined us this year or have partnered with us for many years, we thank you.

This is the first time we have produced a digital annual Honor Roll. We believe that it is attractive, searchable, efficient and easily updated. I hope you like it too.

With much appreciation,

A handwritten signature in black ink that reads "George B. Bartley". The signature is fluid and cursive.

NAMED DIRECTORSHIPS

To honor leadership at its highest level, Mayo Clinic has created a select number of Named Directorships. These directorships are designed to recruit and retain outstanding leaders and recognize individuals who are widely known for excellence in their field. The gift funds are held in endowment, and all income supports priorities in medical education, research and practice. The name of the directorship includes the area of research, education and practice along with the benefactor's name or person whom they wish to honor.

Marilyn A. Park and Moon S. Park, M.D., Director of the Center for Multiple Sclerosis and Central Nervous System Demyelinating Diseases
Marilyn A. Park and Moon S. Park, M.D.

NAMED PROFESSORSHIPS

Benefactors also make it possible to bestow named professorships, the highest academic distinction at Mayo Clinic. These professorships recognize outstanding physicians and scientists for their contributions to research and teaching. A professorship bears the name of the benefactor or honors someone important to the benefactor. The gift funds are held in endowment, and all income supports programs in medical education research and practice. We gratefully recognize alumni benefactors whose generosity supports named professorships at Mayo Clinic and those who have made professorship gifts in honor of alumni.

ENDOWMENTS

Benefactors who make endowed gifts help assure the future of medical progress. These gifts provide sustained financial support that will further Mayo's mission for years to come. The annual income from the Mayo Clinic endowment supports a wide range of innovations in medical care, education and research. We are honored to recognize alumni benefactors who have invested in the future of medicine by making an endowed gift of \$250,000 or greater and benefactors who have made endowment gifts in honor of alumni.

DOCTORS MAYO SOCIETY

We are honored to have so many generous alumni, public trustees and administrative voting staff in the Doctors Mayo Society. They are partners in helping Mayo Clinic maintain the highest levels of integrity in practice, education and research. Members are recognized in perpetuity; a deceased spouse is remembered in parenthetical citation if the alumnus has remarried.

FOUNDERS CIRCLE

The Doctors Mayo Society Founders Circle recognizes benefactors who have made cumulative gifts and pledges equaling \$50,000 or more and those who have made estate commitments of \$100,000 or more.
