

Surgery Physician Update

June 2025

Patient Care

Advances in surgery for cholangiocarcinoma

Mayo Clinic is making strides to give people with cholangiocarcinoma a better outlook through advances in surgery, liver transplant and medical therapies.

[Learn more](#)

Novel treatment for primary aldosteronism

Endocrine surgeons at Mayo Clinic offer unilateral adrenalectomy to reduce medication use for people with primary aldosteronism due to bilateral adrenal disease.

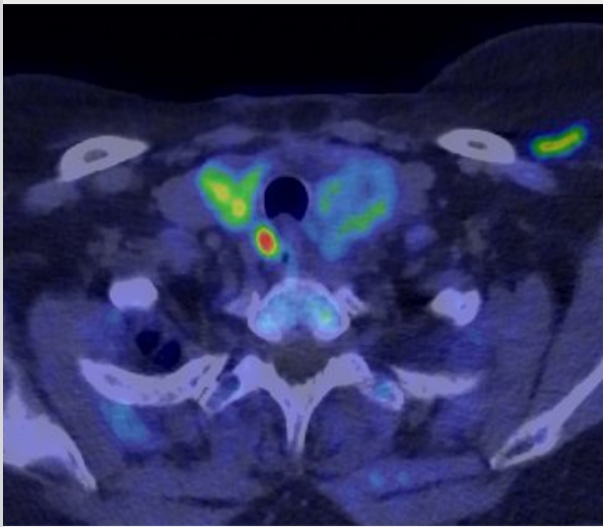

[Learn more](#)

Performing complex bariatric surgery for weight loss

Mayo Clinic in Rochester, Minnesota, offers bariatric surgery for patients who are at high risk or need revision surgery.

[Learn more](#)

Mayo Clinic offers highly specialized scan to treat hyperparathyroidism

The C-11 choline PET/CT scan can identify hyperfunctioning parathyroid tissue with high accuracy. The scan helps identify patients who otherwise would not have been considered surgical candidates.
