

## EXECUTIVE HEALTH

### PROGRAM

#### General Information

The Executive Health Program is designed to meet the needs of the busy executive. It is a preventive screening physical intended for healthy people.

If you are a Corporate Executive and your company has enrolled as a corporate client, please check with the person at your company responsible for managing executive examinations to see what tests and/or subspecialty consultations are covered.

If you are an Individual Executive and your company has not enrolled as a corporate client, it is strongly suggested that you check with your insurance company to be sure a preventive physical examination is a covered benefit.

Our physicians recommend a preventive health package that is age and gender based. Additional tests may be added to the recommended package at additional cost.

Length of time required for full program:

- Under Age 50:

Recommended package only: Allow 1 full day

If additional tests are added: Allow 2 full days

- Over Age 50:

Recommended package only: Allow 2½ days

If additional tests are added: Allow 3 to 4 days
