kids with cancer a brighter
future**

Patient Care

Mayo Clinic offers medical facilities 24/7 virtual acute OB access

Noting obstetrics (OB) care shortages, particularly in rural areas, Mayo Clinic Obstetrics started an acute teleOB program, offering virtual Mayo Clinic OB specialist access round-the-clock to hospitals and emergency departments.

Individualized approach key for treating endometriosis

A Mayo Clinic minimally invasive gynecologic surgeon talks about the customized approach needed — rather than automatic hysterectomy plus fallopian tube and ovary removal — for optimal endometriosis care.

[Learn more](#)

New directions in endometrial cancer research and treatment

The field of endometrial cancer is evolving rapidly, moving toward molecular risk stratification and targeted therapy using a team science approach. A Mayo Clinic gynecologic oncologist and a medical oncologist explain.
