

# Ophthalmology Physician Update

May 2023

## Patient Care

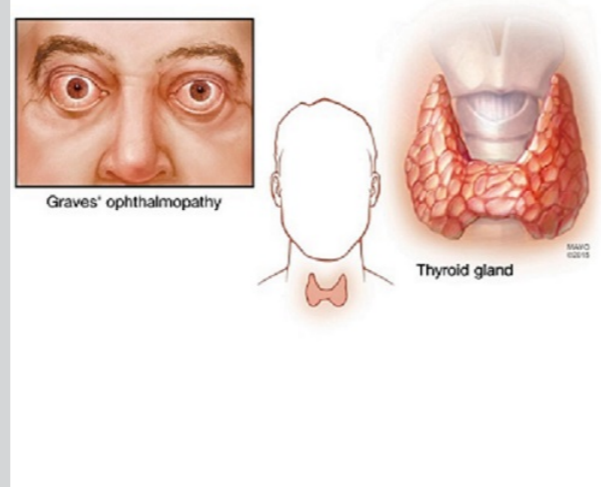

**Fine-tuning cataract surgery**  
Light Adjustable Lens is the only artificial intraocular lens that allows physicians to design, trial and customize a patient's vision after cataract surgery.

[Learn more](#)

**Pediatric retina surgery program provides comprehensive care**  
Utilizing the latest resources and technology available, Mayo Clinic has been building and refining an innovative pediatric retina surgery program.

[Learn more](#)

**Customized, collaborative approach to treatment of thyroid eye disease**  
Mayo Clinic's Thyroid Eye Disease Clinic model has aided in streamlining diagnostic processes and treatment recommendations.
