

Ophthalmology Physician Update

September 2025

Patient Care

Addressing challenging uveitis cases

Recognizing that uveitis often reflects underlying systemic autoimmune or inflammatory disease, Mayo Clinic emphasizes a truly multidisciplinary approach that brings together ophthalmologists, rheumatologists, immunologists and other specialists to provide seamless, patient-centered care.

Research

Novel surgical technique for correcting exocyclotropia

A new surgical approach for correcting exocyclotropia has shown promising results, according to a retrospective case series conducted by Mayo Clinic researchers.
