

PULMONOLOGY

PHYSICIAN UPDATE E-EDITION

July 2020

Mayo Clinic's highest priority is patient and staff safety. We are taking every precaution to safely care for patients during their visit. Mayo Clinic has a long-standing history of helping our community in crisis while maintaining capacity to care for patients who need it most. We continue to evaluate the circumstances at each of our sites and follow federal and state mandates to protect the safety of our patients, staff and communities.

Find [resources for providers](#) and answers to questions on [referrals and testing](#) for COVID-19 on the Medical Professionals Resource Center.

Patient Care

[Obstructive sleep apnea testing devices used by patients at home](#)

Mayo Clinic Center for Sleep Medicine innovation reduces the time and effort patients expend in obtaining accurate diagnoses and personalized treatment plans for obstructive sleep apnea.

[COVID-19 Navigator](#)

Mayo Clinic provides COVID-19 clinical content for medical professionals through AskMayoExpert, including check-in screening tools, evaluating for COVID-19, personal protective equipment (PPE) resources, management of patients with COVID-19 and operational resources.

Research

[Intestinal microbes may be a hidden cause of inflammatory lung disease](#)

In this Q and A, Mayo Clinic pulmonologist Joseph H. Skalski, M.D., discusses research into intestinal bacterial and fungal microbiota in patients with obstructive disease phenotypes.

[Mesenchymal stem cells show promise as reparative tools for patients with chronic lung conditions](#)

Research supports that it is safe and feasible to provide cell therapy intravenously to lung transplant recipients who have developed chronic lung allograft dysfunction.
