

Trauma Professionals Update

June 2025

Patient Care

Keeping patients in their communities through telemedicine

Telemedicine offers a hand and an expanded team to treat patients in their local facilities rather than traveling long distances for significant injuries, emergency deliveries or stroke care.

Trauma activation: A look at the whole picture

A trauma activation involves many parts, and each trauma professional may see only one portion. This article offers a look at the entire activation process.

[Learn more](#)

How and what to get ready for a mass casualty

Even the smallest trauma center must be ready when a natural disaster or multiple vehicle crash affects its local area. Learn about what to prepare for and how to prepare.
