Patient Care

Mayo Clinic offers BipolEP for select patients with benign prostatic hyperplasia

In this Q&A, urologist J. (Nick) Nicholas Warner, M.D., discusses bipolar enucleation of the prostate (BipolEP). Ideal candidates for bipolar enucleation have a larger prostate or urinary retention.

Research

Model helps stratify cancer-specific survival in patients with metastatic kidney cancer after nephrectomy

Adding biomarkers Bcl-2 interacting mediator of cell death (BIM) and survivin to previously created clinical metastases scores may improve the prediction of cancer-specific survival.
