Practice Guidelines and Research

**Prepare for traumatic events requiring hemostatic resuscitation**
A trauma surgeon and the chair of Mayo Clinic Transfusion Medicine share what's changed with hemostatic resuscitation, plus intervention
goals, preparation, use of adjuncts and cautions.

**How to help with the nonphysical side of trauma**

In addition to physical care following a trauma, patients may need care for acute stress reaction, an emotional response to the event. Here's how to be prepared to help.

**Education**

Mayo Clinic School of Continuous Professional Development offers live courses, livestreaming courses, online continuing medical education (CME) courses and podcasts to meet your CME needs.

Medical education from Mayo Clinic experts is also available through GIBLIB, a new on-demand medical education library. GIBLIB provides a free seven-day trial and a 25% discount on premium annual subscriptions including unlimited CME for Mayo Clinic learners. Simply enter code MAYOCPD2021 to access this offer.

**Mayo Clinic Opioid Conference: Evidence, Clinical Considerations and Best Practice 2021**

Sept. 23-25, 2021, in Rochester, Minn., and livestream

This course highlights guideline shifts and public concern regarding medical opioid use. It covers opioid indications, pharmacology, selection, management guidelines, tapering, legal considerations and alternatives.

**2021 High Performance Resuscitation Teams Summit**

This summit explores how resuscitation team members acquire, process and make information actionable and also looks at effective communication, collaboration and cooperation strategies. Experts focus on situations of high risk and high consequences.

**Practical Emergency Medicine — Online CME Course**

Course expires Sept. 10, 2022

This course is for practitioners at all levels to learn about advances in emergency patient care. Mayo Clinic faculty who care for acutely ill and injured adults and children every day teach the course.
